IMPACT BY THE NUMBERS:
A HALF-YEAR OF HEALING

Just two months ago, eleven-year-old **Jaylanie** traveled from Saint Lucia to St. Louis for specialized care after what began as a small bump on his collarbone was diagnosed as a rare and aggressive bone tumor. Thanks to a multidisciplinary surgical team at **St. Louis Children's Hospital**, Jaylanie underwent a nearly 12-hour surgery to remove the tumor and rebuild his clavicle. He is now resting, recovering, and slowly finding his voice again.

During his stay, he celebrated his birthday with an unforgettable surprise. A passionate fútbol fan, he visited CITYPARK, stepped onto the pitch, and received a custom jersey from Simon Becher of St. Louis CITY SC. It was a joyful reminder of the community surrounding him during a challenging time. ❤️⚽

This healing was made possible through the collaboration of dedicated surgeons, compassionate partners, and **incredible donors like you**, ensuring Jaylanie had access to the life-saving care he needed.

TREASURES *in* PARADISE ST. LOUIS

Our 25th anniversary celebration continues with **Treasures in Paradise: A Silver Soirée** taking place **January 30** at **Old Warson Country Club**. The evening will bring our community together around the inspiring stories of children whose lives have been transformed through World Pediatrics.

"Treasures in Paradise is always a fun event, but 2026's gala will be even more spectacular," shares Board Chair Mary Pat Brown. *"It's a way to celebrate the more than 27,000 children healed by World Pediatrics while looking ahead to the future of pediatric care."* Guests will enjoy fine wine, gourmet cuisine, and an exceptional auction, followed by a new Champagne Lounge After Party—raising a glass to 25 years of healing and the many lives still waiting for care.
