IMPACT BY THE NUMBERS:
QUARTER 3

Breicher has become quite the familiar face around World Pediatrics and for good reason. When the 5-year-old arrived in St. Louis, she faced a long road ahead. Since November, she has undergone three major surgeries to stabilize her knees and straighten and fuse her ankle, each step bringing her closer to walking on her feet for the very first time. With the support of a multidisciplinary care team and ongoing physical therapy, Breicher is now beginning to bear weight and take steps forward.

But beyond her medical journey, she's also become a well-seasoned World Pediatrics guest—making appearances at Treasures in Paradise, the Dove Society & Volunteer Appreciation event, and even spending time with our development team during a recent retreat.

Always ready for a photo and full of personality, Breicher might just be our next influencer—but she'll be broadcasting from the Dominican Republic as she was just given the green light by her team to return home. ❤️

This month, we gathered for our annual **Dove Society & Volunteer Appreciation Event**—an evening celebrating the community behind this work.

We were proud to recognize **TAWANI Foundation** as our **2026 Organizational Champion**, with **David Pelizzon** accepting the award on behalf of the Foundation. As he shared, “We partner with many nonprofits, but World Pediatrics is one that truly stands out. They’re incredibly thoughtful in how they operate and how carefully it puts every dollar to work for children.”

The evening also honored **Dr. Charles Goldfarb, Jennifer & Nathan McKean**, and **James Travis**—all extraordinary leaders helping move World Pediatrics’ mission forward.

Honduras Vision Trip

Members of the World Pediatrics Chapter Boards and leadership team recently gathered in Honduras for one of our first Vision Trips—an opportunity to **experience the work firsthand** during a scoliosis surgical week while continuing **strategic planning** and **strengthening alignment** across our city chapter boards.

We’re especially grateful to St. Louis Board Chair **Mary Pat Brown** and Vice President of Development **Linda Boyland** for joining the visit, representing the strength and leadership of our community on the ground.

A special thank you to our Honduras and scoliosis surgical teams for making this such a meaningful experience.
